**Always Driven.**

Club Car's® motivation has always pushed beyond simply moving golfers and gear around the course. We vowed long ago to be an essential contributor to our customers' profitability. This commitment has kept Club Car in front of every significant advance in the industry. Now, as ever, your success drives Club Car.

# Welcome to Innovation Central.

## Inspired thinking to move you forward.

What's happening at Club Car® goes way beyond refining our best-in-class golf cars. It's a revolution, touching every area of our business and driven by our quest to deliver products that enhance your operation and improve profitability. You'll see it in Precedent i3, the first car with built-in connectivity as a standard feature, and Visage™, the industry's first mobile golf information system; a re-imagined Café Express and Precedent 4Fun, big ideas to improve the customer experience and your bottom line; and E.R.I.C., inspired new thinking in what a charging system can do. It's a new day. And Club Car has risen to the challenge.

### **Connectivity Solutions:**

Precedent i3 has built-in, expandable connectivity features standard; Visage, Club Car's premier technology, helps courses increase revenue, decrease expenses and more.

### **Café Express:**

Re-engineered from top to bottom to maximize storage, merchandising and efficiency, built on the all-new, EFI-driven Carryall 500.

### **Precedent 4Fun:**

Inspired, four-passenger design gives operators a smart way to attract new business.

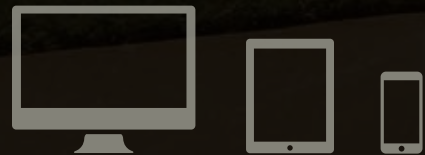

**E.R.I.C.:** Our new, advanced charging system—Efficient. Reliable. Intelligent. Connected.

# Control in the Age of Connectivity.

As connectivity affects every aspect of our lives, who else but Club Car® could pioneer its integration into golf cars? A solutions platform that is expandable and customizable according to your preferences, connectivity is engineered directly into the Precedent i3. You decide how many of the connected features you want to add to your fleet—from simple diagnostics, all the way up to Visage™, our premier suite of connected features. In the Age of Connectivity, this cloud-based system lets you connect any time, anywhere from your computer or mobile device and always know what your customer wants, what your fleet needs and what's happening out on your course. With this information, you'll enjoy an unprecedented measure of control over your fleet, maintenance and operation. And you know where that leads: Success.

Manage and monitor your fleet from any location. Connectivity communicates through the Cloud, which means your fleet is accessible from any Internet-able device—computer, tablet or smartphone.

# Visage™: Golf's first mobile information system.

**ViSAGE**  
MOBILE GOLF INFORMATION SYSTEM

Visage heightens the golf experience for players as it maximizes ROI for your operation. Wield the full power of connectivity to deliver an unmatched playing experience for golfers and gain complete control over your fleet and operation. You can manage the whole system from any mobile device anywhere.

## Revenue-improvement technology for golf operations.

Fleet diagnostician, marshal, ranger, concierge, caddie, marketing assistant, security officer and goodwill ambassador—before, during and after a round of golf, Visage does it all.

### Ma Manage Assets

Visage protects your fleet and course by reducing golf car abuse, accidents and theft; at the same time, it's also looking out for your tees, greens, bunkers and sensitive areas.

### Re Reduce Expenses

Reduced damage, abuse and theft lowers your maintenance and repair costs. Mowing crews mow rather than move signage and ropes; superintendents orchestrate workers around golfers. Productivity up, overhead down.

### Ir Increase Revenues

Promote and sell higher-ticket menu items ... speed up pace of play and accommodate more rounds ... market pro shop deals to on-course customers—and that's just a taste of how Visage contributes to cash flow.

### De Deliver Experience

Once they've tried Visage, golfers never want to play without it. In addition to hole flyovers, golfers value the instant contact with the pro shop and grill and the high-touch service Visage delivers.

# E.R.I.C.

## Available on all 2014 Precedents

**Efficient:** With energy costs high and getting higher, reducing consumption is the surest way to control costs.

- E.R.I.C. has a peak efficiency of 93%, a 10% improvement over previous charger's efficiency
- Maximum AC amp draw is reduced to 7.5 amps max

**Reliable:** E.R.I.C. is constructed to handle whatever your staff and nature can dish out.

- Beefed-up, sealed aluminum housing wards off sand, salt, dust, water
- Withstands extreme temperature variations (-40°F to 149°F)
- Charger functions through voltage sags; brownouts no longer hamper charging

**Intelligent:** Charger status lights, on-car dash light and audible alerts communicate the car is charging, the state of the charge cycle, battery state of charge and charger faults.

- Visual and audible indicators alert customers to charging status potential errors
- An intelligent charging algorithm monitors pack voltage and charges the pack when needed to make sure your cars are always ready for that next round

**Connected:** E.R.I.C. is adaptable, updatable and stores data—information that can help you make more informed business decisions.

- USB port allows two-way data transfer for uploading system updates and downloading service information by authorized Club Car technicians

With cutting-edge features and functionality built into a smaller, lighter and infinitely smarter design, E.R.I.C. will have an immediate impact on your operation. Workflow and efficiencies increase with minimized user error, cart staff productivity improves and you have the assurance your cars are ready to perform.

## Advanced charging has a new name:

**E.R.I.C.**  
EFFICIENT RELIABLE INTELLIGENT CONNECTED

# 2014 Precedent i3: Connectivity comes standard (and to the rescue).

With more things competing for your customers' time, attention and recreational dollars, the advantage goes to the operation that can differentiate, automate and improve efficiencies. Time for Precedent i3, golf's first car with connectivity built-in.

- Instead of waving goodbye at the first tee, Precedent i3 allows you to spend time with golfers as they play.
- Automate the way you monitor playing conditions.
- Know the location, status and condition of your cars at all times.

The world's first connected golf car arrives from the factory ready to perform tasks that can make an immediate impact on your business. Receive all of the features below and select either Car Control or Tracking as part of your standard configuration.

## The standard Precedent i3 is anything but.

In addition to the standard features of the Precedent i2, the new, third generation Precedent i3 arrives with an array of standard connectivity features.

**Display:** High resolution (readable even in bright sun), fully sealed, weather- and impact-resistant on-board monitor

**Vehicle Information:** Battery charge and vehicle status, service and fault notifications

**Golfer Amenities:** Including yardage book, electronic scorecard, one-way messaging and weather alerts

**GPS Zone Messaging:** Preset, text-only action zone notifications for warnings and promotions

## Want more connectivity? Add what you value.

In addition to the standard connectivity features already included with your Precedent i3, other features are also available:

**Car Control:** Fleet lockdown, staging and cart path only modes, action zone speed control, messaging, geofence\*

**Tracking:** Pace of play, real-time vehicle locator, driving history, real-time messaging and more for total fleet management\*

**Golf Experience:** Yardages, tee shot measurement, food & beverage services and much more

**Tournaments:** Real-time scoring/leader board and more to make your tournaments stand out

**3D Flyovers:** Brilliant imagery, precise yardages ... golfers' favorite feature, by far

\*Car Control or Tracking is available for selection as part of the standard offering.

# 2014 Precedent i2: The Proven Leader

From the moment it rolled off the assembly line, Precedent i2 ushered in a new standard for refined style and user experience. Thoughtfully designed with the golfer and operator in mind, the Precedent i2 continues to inspire imitators. Unfortunately for them, none can equal Club Car®'s legendary innovations and build quality:

- Excel electric drive system features hill descent assist, regenerative braking and more for speed range programming
- Powerful and quiet gas engine provides better acceleration and hill climbing ability
- E.R.I.C.; the premier electrical charging system—Efficient. Reliable. Intelligent. Connected.—comes standard
- Thoughtful ergonomics delivering the comfort and features golfers want
- Durable, rust-proof, aircraft-grade aluminum chassis
- High performance driven by Club Car's class-leading gas or electric power plants
- 360° bumper protects frame and body from damage
- Molded-in color gives body panels a deep, rich appearance that lasts season after season
- Monsoon Top™ with built-in drain spouts channels water away from golfers, their clubs and the sweater basket
- Thoughtfully designed dash and storage make it easy to store and locate personal items
- Spacious bag well with center divider
- Internal canopy handles add comfort and assurance for the driver and passenger
- Industry's tightest turning radius
- Single-point watering system (on electric models)

## Go to the next level in the Precedent i2L.

For distinctive operations that want to offer golfers an equally distinguished golf car, the move is simple: Upgrade to the Precedent i2L and receive everything that comes standard with the Precedent i2 plus these popular enhancements:

- 10-inch aluminum rims
- Soft-grip steering wheel
- Custom logo options on front cowl and accent striping
- Tinted and hinged windshield
- Choice of four standard or four premium molded-in colors
- Choice of a factory and field installed accessory
- Bag protector
- Domed number decals

# Options & Accessories: Build your fleet your way.

Standing out is fundamental to marketing your brand. Club Car® is here to help. With available ergonomic, aesthetic and functional options, the possibilities are almost endless to create a standout car for your course and customer.

For drawing new customers,  
**there's Precedent 4Fun.**

Launched in conjunction with the PGA of America in support of the Get Golf Ready program, the Precedent 4Fun is an innovative way to attract new groups of golfers and families to the game. Precedent 4Fun encourages golf's sociable side, which studies prove is one of the strongest draws of the game. And with all of the standard features included with the Precedent 4Fun, you can easily accommodate a full foursome in comfort.

- Four, forward facing seats
- Four-bag attachment
- Eight cup holders
- 3.7-hp rated IQ Plus electric motor
- Enhanced rear-wheel drum brakes
- Club Car's patented Monsoon Top™
- Add even more features through Club Car Custom Solutions

### **Precedent 4Fun was made for special events.**

A world of revenue-generating possibilities opens up with the Precedent 4Fun in your stable:

- Family outings
- Couples' events
- Attract more women and senior players
- Junior golf leagues
- Team building for business groups or group lessons to grow the game

Precedent 4FUN is not available in all regions. Contact your authorized Club Car representative for more information.

# Mobile Merchandising

## The All New Café Express: Bumper-to-bumper freshness.

Totally redesigned to improve merchandising, lower operating costs and increase sales, Café Express accelerates on-course revenue growth.

- Rides on the new Carryall 500 platform
- Super efficient, 14-hp rated EFI engine consumes 50% less fuel
- Comes standard with two Cambro Beverage Containers; Air Pot; Condiment/Liquor Storage; Solid Windshield; Canopy; Halogen Headlights
- 120% increase in consumable ice capacity
- 256-can capacity
- Larger trash receptacle
- More work surface and display space
- More flexibility—configurable shelves, cup holders and rear storage compartment

## Café Express SE

Show more, sell more with Café Express SE. Riding on the Carryall 295 platform, this unit displays a buffet of products (336-can capacity!) perfect for multi-course facilities.

## mobile merchandising accessories

Air Pot

Hot Box

Food Warmer

Beverage Container

Beverage Containers

5-Panel Rearview

Humidor

Cash Drawer

Some accessories are standard and/or unavailable on select models.

## Carryall 500 with PRC: Fast money.

Talk about fast money, turn your Carryall 500 into an instant revenue generator with the Portable Refreshment Center (PRC). Drop it in the bed, fill it with product, ring up sales.
