Power productivity.
Transform transportation.

**Speed Productivity with
Club Car's New All-Wheel
Drive Facilities-Engineering
Vehicle with Van Box System**

Sending your crews out onto wet, rocky or hilly terrain without the IntelliTrak™ all-wheel drive system, storage space and equipment they need is a recipe for chaos.

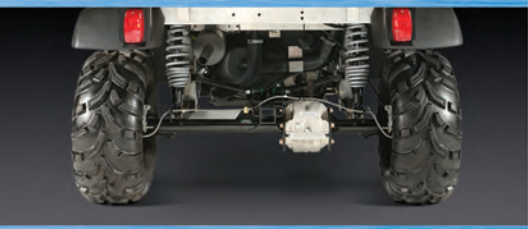

Club Car's new Carryall 1500 Facilities-Engineering Vehicle with Van Box System can help. It's available in gasoline or diesel models.

1.800.ClubCar
www.clubcar.com

Easy to Operate, Durable and Built to Last. The vehicle is built on a durable rustproof, corrosion-resistant aluminum frame. Its exclusive IntelliTrak™ automatic all-wheel drive system virtually eliminates driver training and driver errors. The system senses the ground it's on and shifts as needed. No levers to pull or buttons to push.

This also slashes downtime. And, its four-link semi-independent rear suspension system combines independent suspension performance with solid-axle strength. The solid-axle design is the world standard for Jeeps, Land Rovers and pickups.

Standard colors are dark gray bodies, gray seats and a black canopy. Optional colors are available at a slight upcharge.

ABOUT THE CARRYALL® 1500 FACILITIES-ENGINEERING WITH VAN BOXES

The Carryall® 1500 Facilities-Engineering vehicle is carefully configured with a bundle of accessories based on your unique needs. Commonly selected accessories include a new and improved van box system made of powder-coated aluminum with:
