### **JEFFREY ALLEN INC, IS NOW THE EXCLUSIVE DISTRIBUTOR FOR BOLT ENERGY USA.**

October 16,2023:

Bolt Energy USA has entered into an exclusive distribution agreement with Jeffrey Allen, Inc. for the State of Florida. Jeffrey Allen Inc. is the largest dealer of Club Car golf & utility vehicles in Florida. They also carry HuntVe electric UTVs, Westward utility vehicles, Madjax electric vehicles, Garia luxury golf carts and own one of the largest fleets of rental vehicles in Florida. They have been distributing batteries in Florida since 1970.

Jeffrey Allen is well-positioned to increase consumer sales, build a dealer network and create brand awareness for Bolt Energy by partnering with fellow dealers across the State. They will provide product support, best practice and timely distribution for all Bolt products. Jeffrey Allen Inc. is headquartered in Tampa, Florida, with locations in Orlando and Davie. This strategic partnership will undoubtedly contribute to the growth and success of both companies in the energy sector.

Brent Tenney and Bobby Diaz, both engineers and fellow golf car dealership owners, founded Bolt Energy USA out of their frustration with the low-quality lithium-ion golf car batteries available on the market. They set out to create the best lithium-ion battery on the planet keeping the desires and needs of dealers at the forefront! Bolt Energy USA now designs, produces, and assembles lithium-ion batteries for retail and commercial applications. Their motto is "Do it right the first time" since they were tired of replacing subpar components that other manufactures used with their products.

Bolt lithium-ion batteries are compatible with many brands such as Advanced EV, Bintelli, Club Car, DS, Precedent, Coleman, EZGO, Elite, Evolution, EPIC, GEM. Cars, ICON, Kandi, Madjax, Navitas Storm, Titan, Tomberlin, Vivid, Yamaha and many more.

### **ABOUT BOLT ENERGY USA.**

Bolt Energy USA, located in Florida, is a leading golf cart battery manufacturer. The company is committed to producing high-output lithium batteries compatible with all brands of golf carts. Bolt Energy USA aims to provide unprecedented customer service in the golf cart industry. The company's powerful lithium batteries, paired with its heavy-duty accessories, such as cables, reducers, and HD solenoids, are designed to perform flawlessly under all conditions. This commitment to quality and performance sets Bolt Energy apart in the industry.

### **ABOUT JEFFREY ALLEN INC.**

Jeffrey Allen Inc. is a third-generation family-owned golf cart dealership and service provider that was founded in 1970. The founder, Alan B. Sverdlow, started the company in Bradenton, Florida, as a deep cycle battery distributor for the golf course industry. Jeff Sverdlow, the second-generation CEO, transformed Jeffrey Allen Inc. into one of the highest-rated Club Car dealers in Florida. Today, it is owned by third generation brothers Ben & Craig Sverdlow whose continued dedication to excellence has been a key factor in the company's success and reputation in the industry.
