

# XRT800

WANT A COMPACT UTV THAT DELIVERS PERFORMANCE, COMFORT AND AFFORDABILITY?

Whether you choose the electric version or the 14-hp-rated Kohler engine with EFI, you'll experience a stylish and comfortable ride. The vehicle embodies unmatched power, durability, features, comfort, safety, and dependability.

The XRT800 fits the bill with its toughness and flexibility, navigating narrow spaces, campgrounds, or working in the back yard. You can choose between a 14 hp-rated Kohler single-cylinder overhead cam engine with EFI for enhanced power and efficiency, or a quiet 48-volt electric system with six 8-volt batteries. The XRT800's rustproof twin I-beam welded aluminum frame, cast-steel front bumpers, and high-density, cross-linked durable plastic bed box ensure durability.

Smooth riding and reasonably priced, the XRT800 is a fantastic way to explore the outdoors. It's powerful, affordable, and compact enough to fit in a standard pickup truck bed. Ideal for neighborhoods, lake-front properties, small farms, and narrow trails, it's favored by RVers, campers, and homeowners.

It features best-in-class attributes such as the most potent engine, longest range, and largest bed box (300 lb/136 kg) in its category. Comfort and safety are emphasized through a roomy bench seat, comfort-grip steering wheel, cup holders, and safety features like hip restraints, self-adjusting rear drum brakes, halogen headlights, reverse-warning buzzer, and a slip-preventing floor-mat-covered footwell.

---

**Versatility** - with the affordable EX accessory package that includes a brush guard, differential guard, nerf bars, and wheel covers. Optional features like a rear-facing back seat, canopy, and windshield make it suitable for outings with family and friends.

---

**Dependability** - the XRT800 takes you where you want without power shortages. Gasoline models have a 5.5-gallon fuel tank, fuel gauge/hour meter, and low-oil warning light. Electric models offer an extensive range and a battery warning indicator.
